About Nadovim[®]

NADOVIM is an advanced whole brain health nutraceutical designed to enhance cognitive function, memory and concentration. Widely known for its anti-aging and neuro-protective properties, NAD+ (*nicotinamide adenine dinucleotide*) is the foundational ingredient of this unique mix of natural compounds, bioenergetically selected to maximally support total brain health.

* Standard shipping will be shipped via UPS Ground shipping. All orders received before 1pm ET will be shipped same day (inventory permitting).

Limited Trial Participation

1. Identify patients who may benefit from NADOVIM. Direct patients to complete a single online intake/survey prior to beginning therapy with NADOVIM. Innovative Medicine will supply an instructional handout with each bottle of NADOVIM.
2. Inform patients that they will need to complete a total of 3 surveys at given intervals in their treatment use of NADOVIM. Email reminders will be sent from Innovative Medicine to complete these surveys.
3. Agree to compose a brief report about each patient's progress post 30 / 60 days of treatment. This report may be submitted via an online feedback form.
